Notice

It is being reported by many teachers of this college that students' attendance in the classes is very poor after the onset of off-line classes, in accordance with the Bankura University notification.

Students are well aware of that as per the Bankura University guidelines **75% attendance in the classes is must** for each student to be allowed for filling up forms before the University examinations.

So, they are instructed to attend their classes without fail, otherwise strict measures will be taken against the absentees by the college authority.
